

FEDERAL PROGRAMS DEPARTMENT

Procedures for Pilot Dual Enrollment Tuition Assistance Program under Title IV

Eligibility Requirements - Sophomores, juniors, and seniors enrolled and attending school at Choctaw County High and Southern Choctaw High are eligible to apply for Dual Enrollment Tuition Assistance for one course (approved core or elective) during the academic year. Repeat, remedial, and non-credit courses are not eligible for funding. Failure of a previous Dual Enrollment course disqualifies a student from future tuition assistance. Withdrawal from a Dual Enrollment course without district approval disqualifies a student from future tuition assistance. Applicants must meet all participation requirements of post-secondary institutions who are in partnership with the school district.

Application Process – Interested students must complete and submit the district’s Tuition Assistance Application by the announced due date. Incomplete and or late applications will not be reviewed or considered for funding. Receipt of applications will be recorded upon submission to the district office and processed by the review team. This team will be comprised of members of the District Leadership Team.

Awarding of Applications - Where funds are available, 100% of tuition cost will be awarded to all eligible applicants. If funds are insufficient to provide 100% tuition cost to all eligible applicants, awards will be distributed until funds are exhausted. Awarded applicants and their respective schools will receive written notice of approval.
